College Profile

COLLEGE HISTORY

Officials of the East Pennsylvania Conference of the Church of the United Brethren in Christ were acutely embarrassed in the spring of 1866. Five public-spirited citizens of the town of Annville had come to Conference on February 22 and offered as a gift the Annville Academy building on Main Street, which they had bought for \$4,500, providing that the Conference would establish and maintain there forever an institution of learning of high grade. The gift was accepted. The name Lebanon Valley College was chosen. It was decided to lease the property to some one qualified to operate a school. The opening date was set — May 7. Planning then came to a stop, for they could find no one to take the lease.

That was the situation seven weeks before the opening date, according to George Washington Miles Rigor, whose short account is the earliest extant history of Lebanon Valley College. There was no college graduate in the whole Conference, and a poll of Otterbein College graduates failed to turn up a prospect. Rigor, a United Brethren minister who had attended college for only three years, stepped into the breach. He enlisted the cooperation of a neighbor, Thomas R. Vickroy, a Methodist minister and graduate of Dickinson College. They took over the lease as partners for the next five years, Vickroy to run the school and Rigor to act as Agent. The building was readied and Lebanon Valley College opened on May 7, as scheduled, with 49 students enrolled. From its first day it was coeducational.

President Vickroy's term was marked by action. Eleven acres were added to the "lot and a half of ground" conveyed by the original deed. A spacious four-story building was erected. A charter was granted by the Com-

monwealth of Pennsylvania. A faculty was hired. A complete college curriculum was established, based on the classics but including music and art, and two classes were graduated before Vickroy gave up his lease in 1871. The College was not leased again but continued operations through a Board of Trustees.

The five presidents during the next 25 years had great difficulty in keeping the College afloat, due to lack of support ranging from open opposition to disinterested apathy. There was some progress. A library was established in 1874, and a college newspaper appeared in 1888. However, in the fall of 1896, the school was debt-ridden, living from hand to mouth, with an enrollment of only 80.

The administration of President Hervin U. Roop, starting in 1897, marked the first real period of expansion. Under his leadership, five new buildings were erected, including a library donated by Andrew Carnegie, and the Administration Building was re-built after the disastrous fire of Christmas Eve, 1904. By 1905, enrollment had soared to 470, with a faculty of 23.

Loss of public confidence and financial support prompted Roop's resignation in 1905 and the College faced its darkest days. Bankruptcy was averted by the keen business sense and generosity of President Lawrence Keister, who served from 1907 to 1912.

President George D. Gossard finally gave the College stability when he achieved for it accreditation and a million dollar endowment fund, the income from which was to form the financial cushion dreamed of by all the presidents before him. By the end of his 20-year term in 1932, there were 653 students and 32 faculty members. Most important, the Conservatory of Music was accredited by the Commonwealth for its program in Public School

Music, marking the start of an outstanding academic department.

Following Dr. Gossard's death in 1932, Clyde A. Lynch faced a series of external crises which lasted throughout his 18 years as president. The stock market crash shrank the handsome endowment raised by his predecessor. The Depression of the 1930's reduced the enrollment and World War II shrank it still further; the post-war influx of G.I.'s then stretched it to more than capacity. In spite of these trials, Dr. Lynch's administration began buying property adjacent to the campus to allow for future expansion. It also raised over a half million dollars, part of which was to be used for a new physical education building. This building, still unfinished at the time of Lynch's death in 1950, was named in his honor upon completion.

The twelfth president of the College, Frederick K. Miller, served for almost 17 years. During his term, inflation caused mushrooming costs, but the so-called "Tidal Wave of Students" made possible selective admissions. The greatest physical expansion in the history of the College occurred, with seven new buildings erected and several renovated. Two major fund-raising drives were concluded successfully. Enrollment increased by 60%, with a corresponding increase in faculty and administrative staff. The Centennial of the founding of the College was observed by a year-long series of events.

On April 1, 1967, Dr. Miller retired, and Allan W. Mund, President of the Board of Trustees, became Acting President. It was not until February 3, 1968, that Frederick P. Sample was selected by the Board to become thirteenth president of Lebanon Valley College. When Dr. Sample assumed office on September 1, 1968, Lebanon Valley College faced its second century as a fully-accredited, church-related, coeducational college of the liberal arts and sciences, occupying a 35-acre campus of 26 buildings, and supporting an enrollment of 900 and a full-time faculty of 58.

Just as the College has changed through the years, so has the Church of the United Brethren in Christ which gave it birth and offered its support. Organized in 1800 as the

first Christian church indigenous to the United States, the denomination merged with the Evangelical Church to become the Evangelical United Brethren Church in 1946. In April, 1968, this body joined with the Methodist Church to form the United Methodist Church.

In looking to its second century, Lebanon Valley College is very conscious of the dream of its forefathers that it be "an institution of learning of high grade." It aims to be essentially what it is now, a relatively small college of the liberal arts and sciences that takes its historic Christian origin and current relationship seriously.

SUPPORT AND CONTROL

Lebanon Valley College receives support from the Christian Service Fund Budget of the United Methodist Church, individual congregations of the denomination in the Eastern and Susquehanna Conferences, endowments, and the Pennsylvania Foundation for Independent Colleges. Also, since at Lebanon Valley College as at most other institutions of higher learning the tuition and other annual charges paid by the student do not cover the total cost of his education, additional income is derived through the Lebanon Valley College Fund. The Fund is supported by industry, alumni, parents of students, and other friends of the College.

Total assets of Lebanon Valley College exceed \$10,000,000, including endowment funds in excess of \$2,350,000. Aside from general endowment income available for unrestricted purposes, there are a number of special funds designated for specific uses such as professorships, scholarships, and the library.

Control of the College is vested in a Board of Trustees composed of 46 members, 32 of whom represent the Eastern, Susquehanna and Virginia Conferences; 3 of whom represent the alumni of the institution; and 13 of whom are elected at large. Members of the college faculty who are departmental chairmen are ex-officio members of the Board of Trustees.

Information For Prospective Students

ADMISSION

Students are admitted to Lebanon Valley College on the basis of scholarly achievement, intellectual capacity, character, personality, and ability to profit by college experience.

GENERAL INFORMATION

1. All communications concerning admission should be addressed to the Director of Admissions, Lebanon Valley College, Annville, Pennsylvania 17003.
2. Applications should be submitted as early as possible in the latter part of the junior or the beginning of the senior year of high school or preparatory school.
3. Applications must be filed on forms provided by the Office of Admissions.
4. Each application must be accompanied by an application fee of \$10.00. This fee is not refundable.
5. A transcript of the secondary school record, on a form provided by the College for that purpose, must be sent by the principal to the Director of Admissions. May 1 is the deadline for receiving applications.
6. A student transferring from another collegiate institution must present an official transcript of his scholastic record and evidence of honorable dismissal.
7. All new students are required to present on or before August 20 the official Health Record showing a physician's report of medical examination; certification of vaccination within a period of five years and immunization against flu, polio, and tetanus given just prior to the student's entrance to college.

Admission is based on *total* information submitted by the applicant or in his behalf.

Final decision, therefore, cannot be reached until all information has been supplied by the applicant.

FACTORS DETERMINING ADMISSION

Each candidate for admission will be considered individually and the decision of the Admissions Committee with respect to admission will be based on the following factors:

1. The transcript of the applicant's secondary school record.
2. Recommendation by the principal, teachers, and other responsible persons as to the applicant's special abilities, integrity, sense of responsibility, seriousness of purpose, initiative, self-reliance, and concern for others.
3. A personal interview, whenever possible, with the Director of Admissions or his designate.
4. College Entrance Examination Board test results: (a) Scholastic Aptitude Test, (b) three achievement tests — English composition and two optional tests. All candidates for admission are required to take the Scholastic Aptitude Test and three achievement tests — English composition and any other two. Those seeking entrance in September are advised to take these tests no later than in the preceding December and/or January. Full information concerning dates and locations of these test administrations may be obtained by writing to: College Entrance Examination Board, P.O. Box 592, Princeton, N. J. 08540.
5. Additional test results which may be required in special cases by the Committee on Admissions.

ADMISSION TO THE DEPARTMENT OF MUSIC

An applicant to the music or music education curriculums is expected to satisfy the general requirements for admission. In addition, the candidate must appear for an audition before members of the music faculty and show evidence of:

1. An acceptable singing voice and a fairly quick sense of tone and rhythm;
2. Ability to sing at sight hymn and folk tunes with a fair degree of accuracy and facility;
3. Ability to sing or to play the piano, organ, or some orchestral instrument at a level representing three years of study.

RECOMMENDED UNITS FOR ADMISSION

It is recommended that all candidates offer 16 units of entrance credit and graduation from an accredited secondary school or submit an equivalency certificate acquired through examination.

Ten of the 16 units offered for admission must be from the following subjects: English, foreign language, mathematics, science, and social studies.

An applicant for admission whose preparatory courses do not coincide with the distribution of subject units (see below) may be considered by the Committee on Admissions if his academic record is of high quality and if, in the opinion of the Committee, he appears to be qualified to do college work satisfactorily. All entrance deficiencies must be removed before sophomore academic status will be granted.

TRANSFER CREDIT

A student applying for advanced standing at Lebanon Valley College after having at-

tended another accredited institution of higher education shall submit an official transcript of his record and evidence of good standing to the Director of Admissions. He must also submit College Board Aptitude and Achievement Test scores.

Credits are accepted for transfer provided that the grades received are C (2.0) or better and the work is equivalent or similar to work offered at Lebanon Valley College. Grades thus transferred count for hours only, not for quality points.

Students transferring from two-year institutions are required to earn at least 60 hours of credit from a four-year institution for graduation. A minimum of 30 hours of this must be taken at Lebanon Valley College to meet the residence requirement.

Transfer students may be required to take placement examinations to demonstrate adequate preparation for advanced courses at Lebanon Valley College.

Subject to the conditions listed in the second paragraph, Lebanon Valley College will recognize for transfer credit a maximum of 15 hours of USAFI course work provided such credit is recommended by the American Council on Education publication, *A Guide to the Evaluation of Educational Experiences in the Armed Services*.

Credit will not be granted for correspondence courses.

ADVANCED PLACEMENT

Advanced placement and/or credit may be granted to entering students who make scores of 3, 4, or 5 on the College Board Advanced Placement examination.

Advanced placement without credit may be granted on the basis of the Achievement Tests of the College Board Examinations or such other proficiency tests as may be determined by the Assistant Dean of the College and by the chairman of the department in which advanced placement is sought.

* If an applicant cannot present the two units of foreign language, he will be required to take a minimum of two years of one language in college. His credits for this work will be counted toward graduation requirements.

STUDENT FINANCES

Lebanon Valley College is a private non-profit institution. It derives its financial support from endowment and gifts from the United Methodist Church, alumni, industry, friends and from the tuition, fees, and other charges paid by the students. The cost to the student is maintained at a level consistent with adequate facilities and high quality instruction.

FEES AND DEPOSITS

An application fee of \$10.00 which is not refundable is charged each applicant to apply against the cost of processing his application for admission. An admission deposit of \$100.00, payable within ten days of notification of acceptance, is required of all new (including transfer) students. Until this deposit is paid the student is not guaranteed a place in the entering class. The admission deposit is not refundable; it will be applied to the student's account upon registration.

RESIDENCE HALLS

Residence hall rooms are reserved only for those returning students who make an advance room reservation deposit of \$50.00. (Receipt must be presented at the time of room sign-up which occurs immediately after the Easter Vacation.)

Occupants are held responsible for all breakage and loss of furniture, or any damage for which they are responsible.

Students rooming in residence halls may not sublet their rooms to commuting students or to others.

Since Lebanon Valley College is primarily a boarding institution, all students are required to live in college-owned or controlled residence halls. Exceptions to the above are: married students, students living with immediate relatives, or those living in their own homes who commute daily to the campus.

Should vacancies occur in any of the residence halls, the College reserves the right to require students rooming in the community to move into a residence hall.

The College reserves the right to close all residence halls during vacations and between semesters.

The College reserves the right to inspect any student's room at any time. Periodic inspection of residence halls will be made by members of the administration.

The College is not responsible for loss of personal possessions by the students.

Lounges are provided by the College for resident and commuting students.

MEALS

All resident students are required to take their meals in the College Dining Hall. Commuting students may arrange for meals Monday through Friday, if space is available.

FINANCIAL AID

Lebanon Valley College offers financial assistance to deserving students who have been accepted for admission and who apply for such aid insofar as its aid funds permit. Financial aid is offered on the basis of academic attainment, promise or special talent, and financial need in the form of scholarships, grants, loans, and employment or a combination thereof.

Students applying for financial aid must submit the Parents' Confidential Statement through the College Scholarship Service, Box 176, Princeton, New Jersey, 08540. High School seniors may obtain these forms in high school guidance offices or through college financial aid offices.

Financial aid can be offered by the College only after a Parents' Confidential Statement is on file, and application should be made as early as possible and no later than April 1.

Applicants for financial aid and students receiving financial aid are obligated to report the excess above \$100 of all aid from non-college controlled sources (prizes, awards, grants, scholarships, and loans). The College reserves the right to review and revise the recipient's financial aid package in view of any outside aid that he receives.

EMPLOYMENT

Financial assistance is available in the form of waiterships, janitorships, laboratory aides, clerical aides, library aides and other forms of work assignments. Employment is granted to deserving students on the basis of the requirements of the College.

LOANS

The National Defense Education Loan Program is available to students at Lebanon Valley College. Application must be made no later than April 1.

The Lebanon Valley College Loan Fund also is available to students on a short term basis. Loans are interest-free while the student is in college. A nominal rate of interest is charged following graduation or withdrawal from college.

Academic Programs & Procedures

REQUIREMENTS FOR DEGREES

Lebanon Valley College confers five bachelor degrees. They are: Bachelor of Arts, Bachelor of Science, Bachelor of Science in Chemistry, Bachelor of Science in Nursing, and Bachelor of Science in Medical Technology.

The degree of Bachelor of Arts is conferred upon students who complete the requirements for graduation in the following areas, and who are recommended by the faculty and approved by the Board of Trustees: Biology, English, French, German, Greek, History, Latin, Mathematics, Music, Philosophy, Physics, Political Science, Psychology, Religion, Sociology and Spanish.

The degree of Bachelor of Science is conferred upon students who complete the requirements in the following areas, and who are recommended by the faculty and approved by the Board of Trustees: Biology, Chemistry, Mathematics, Physics, Actuarial Science, Economics and Business Administration, Elementary Education, Music Education, Arts-Engineering, and Arts-Forestry.

The professional degrees of Bachelor of Science in Chemistry, Bachelor of Science in Nursing, and Bachelor of Science in Medical Technology are conferred upon students who complete the requirements in the respective professional areas and who are recommended by the faculty and approved by the Board of Trustees.

SEMESTER HOURS

The requirements for degrees are stated in "semester hours of credit" which are based upon the satisfactory completion of courses of instruction. Generally, one semester hour credit is given for each class hour a week throughout the semester. In courses requiring laboratory work, not less than two hours of laboratory work a week throughout a semester

are required for a semester hour of credit. A semester is a term of approximately 17 weeks.

Candidates for degrees must obtain a minimum of 120 semester hours credit in academic work in addition to the required courses in Freshman and Sophomore Physical Education. However, a student who has a physical disability may be excused (on recommendation from the College Physician) from the requirement in physical education.

MAJOR

As a part of the total requirement of 120 hours every candidate for a degree must present at least 24 semester hours of course work in one department (this is his major). The initial selection of a major may be indicated or recorded any time before the end of the student's sophomore year. Such a choice of department or curriculum in which to pursue work of special concentration must be made by the time of registration for the junior year. A student accepted as a major has the right to remain in that department as long as he is in college.

EXAMINATIONS

Candidates for degrees are required to take end of course examinations and the Graduate Record Examination in the major field.

GRADUATE RECORD EXAMINATION

Candidates for degrees must take the Advanced test of the Graduate Record Examination in their major field. This examination is prepared and scored by the Educational Testing Service. The tests cover the entire field of concentration. The results are made available to the student and become a part of his permanent record.

RESIDENCE REQUIREMENT

Degrees will be conferred only upon those candidates earning in residence a minimum of 30 semester hours out of the last 36 taken

before the date of the conferring of the degree, or before the transfer to a cooperating program. Residence credit is given for course work completed in regular day classes, and in evening and summer school courses taken on campus.

GRADE POINT AVERAGE

Candidates for degrees must also obtain a cumulative grade point average of 1.75, computed in accordance with the grading system indicated below.

In addition, candidates must earn a grade point average of 2.0 in the major field of study.

Only grades received in courses taken on campus or in courses staffed by Lebanon Valley College at the University Center at Harrisburg are used to determine grade point averages.

SYSTEM OF GRADING AND QUALITY POINTS

The work of a student in each subject is graded A, B, C, D, or F, with the plus and minus available to faculty members who wish to use them. These grades have the following meanings:

A—distinguished performance

B—superior work

C—general satisfactory achievement

D—course requirements and standards satisfied at a minimum level

F—course requirements and standards not satisfied at a minimum level

When a grade of F has been received, the student may not proceed with any part of the course dependent upon the part in which the grade of F has been received. If a student fails in a subject twice, he may not register for a third time.

In addition to the above grades the symbols "I," "W," "WP," and "WF" are used on grade reports and in college records. "I" indicates that the work is incomplete (that the student has postponed with the consent of the instructor, certain required work), but otherwise satisfactory. This work must be completed

within the semester following, or the "I" will be converted to an F.

W indicates withdrawal from a course any time within the first six weeks of classes of a semester without prejudice to the student's standing. In case of withdrawal from a course after six weeks the symbol WP will be entered if the student's work is satisfactory, and WF if his work is unsatisfactory. The grade WP will be considered as without prejudice to the student's standing, but the grade WF will be counted as an F. If a student withdraws from a course after twelve weeks, without a reason satisfactory to the Registrar, a grade of WF will be recorded.

For courses in which no academic credit is involved, student work is evaluated as either S (Satisfactory) or U (Unsatisfactory).

For each semester hour credit in a course in which a student is graded A, he receives 4 quality points; A—, 3.7; B+, 3.3; B, 3; B—, 2.7; etc. F carries no credit and no quality points.

PASS-FAIL GRADING

After a student has gained sophomore standing, he may elect to take up to two courses per semester and one course per summer session on a P/F basis, but only six of these courses can be counted toward graduation requirements.

Any courses not being counted toward the fulfillment of the general requirements or the specified major requirements may be optional on a pass/fail basis. Any pre-requisite course taken on a P/F basis and successfully completed will satisfy the pre-requisite.

Any course taken on a P/F basis will be graded P/H (pass with distinction), P (pass), or F (fail). P/H is defined as B+ and up, P is defined as D— through B; and F is below D—.

Any course completed on a P/F basis shall be counted toward graduation requirements but only an F grade shall be included in computing the grade point average. All passing grades shall be treated on the record as we presently treat transfer credit.

The student will indicate at the time of pre-registration or registration the courses that he has elected to take on a P/F basis. He may

change his option for P/F grading to the regular grading basis or from regular grading to P/F grading within two weeks after the beginning of the semester.

Instructors will not be informed of the grading option selected by the student. Instructors will submit an A through F grade for each student and it will fall upon the Registrar to convert the grade to P/H, P or F for students selecting this grading system.

TRANSFER STUDENTS

Students transferring from two-year institutions are required to have 60 hours of work at a four-year institution for graduation. A minimum of 30 hours of this must be taken at Lebanon Valley College to meet the residence requirement. (See pages 27-28.)

Students transferring from other institutions must secure a grade point average of 1.75 or better in work taken at Lebanon Valley College.

ATTENDANCE AT BACCALAUREATE AND COMMENCEMENT PROGRAMS

All seniors are required to attend the Baccalaureate and Commencement programs at which their degrees are to be conferred.

Degrees will be conferred in *absentia* only for the most compelling reasons and only upon a written request approved by the Assistant Dean of the College. Such requests must be submitted at least two weeks prior to the date of Commencement.

Faculty approval is required for the conferring of the degree and the issuance of the diploma in any case of wilful failure to comply with these regulations.

COOPERATIVE ENGINEERING PROGRAM

Adviser: *Dr. Bissinger*

Lebanon Valley College offers a cooperative program in Engineering whereby a student may achieve a liberal arts degree from Lebanon Valley College and also an engineering degree from the University of Pennsylvania or any other institution with which cooperative arrangements are in effect.

A student electing to pursue this curriculum spends the first three years in residence at Lebanon Valley College. At the end of these three years he may, if recommended, go to the University of Pennsylvania or another co-operating institution for two additional years of work in engineering. Upon the successful completion of the five years of study, the student will receive two degrees: the Bachelor of Science degree from Lebanon Valley College and a Bachelor of Science degree in one of the fields of engineering from the University of Pennsylvania or other co-operating institution.

The adviser should be consulted concerning the various curriculums.

COOPERATIVE FORESTRY PROGRAM

Adviser: *Mr. Bollinger*

Lebanon Valley College offers a program in forestry in cooperation with the School of Forestry of Duke University. Upon successful completion of a five-year coordinated course of study, a student will have earned the Bachelor of Science degree from Lebanon Valley College and the professional degree of Master of Forestry from the Duke School of Forestry.

A student electing to pursue this curriculum spends the first three years in residence at Lebanon Valley College. Here he obtains a sound education in the humanities and other liberal arts in addition to the sciences basic to forestry. The student devotes the last two years of his program to the professional forestry curriculum of his choice at the Duke School of Forestry.

The adviser should be consulted concerning the curriculum.

MEDICAL TECHNOLOGY CURRICULUM

Adviser: Dr. Hess

Each applicant for admission to this program should secure approval by the School for Medical Technologists for the status of pre-registered students, to be admitted on the successful completion of the academic part of the curriculum at the College. The School for Medical Technologists shall be the final judge of a student's qualifications to pursue its curriculum.

The first three years will be spent at Lebanon Valley College in pursuit of a program of study which includes all the general requirements for graduation and certain courses especially suitable as preparation for the study of medical technology. The adviser should be consulted concerning the curriculum.

Following the completion of this curriculum the student will spend 12 months at the Harrisburg Hospital School for Medical Technologists or another approved school, in the pursuit of its regular curriculum as prescribed by The American Society of Clinical Pathologists. On the successful completion of both phases of the curriculum the student will be awarded the degree of Bachelor of Science in Medical Technology by Lebanon Valley College.

PRE-MEDICAL, PRE-DENTAL, AND PRE-VETERINARY CURRICULA

Adviser: Dr. Hess

Students contemplating admission to Medical, Dental, or Veterinary Colleges should pursue a science program with a major in either biology or chemistry. They should register their professional intentions with the adviser of these programs by the end of their freshman or sophomore years. At that time their work will be reviewed and provision made to meet the special requirements of the colleges of their choice.

All students planning to enter the medical profession should confer with the pre-medical adviser as to the dates for medical aptitude tests and other special requirements.

The adviser should be consulted concerning the curriculum.

NURSING

Adviser: Mr. Bollinger

The five-year Nursing Plan offers to young women intending to enter the field of nursing an opportunity to obtain a liberal arts education in connection with their nurses' training.

Lebanon Valley College has an affiliation with a number of hospital schools of nursing for a five-year curriculum in nursing, the first two years of which are spent at Lebanon Valley College.

The next three years are spent at the School of Nursing in pursuit of the regular curriculum. At the end of these five years the student who has successfully completed both phases of the curriculum will be awarded the degree of Bachelor of Science in Nursing by Lebanon Valley College and the diploma in nursing by the School of Nursing.

The adviser should be consulted concerning the curriculum.

TEACHING

Advisers: Dr. Ebersole, Mrs. Herr

The requirements listed below are applicable to students certified to teach in the Commonwealth of Pennsylvania.

BASIC REGULATIONS—PENNSYLVANIA STATE PROVISIONAL COLLEGE CERTIFICATES

A. General Education

Certificates are based on the completion of a minimum of sixty (60) semester hours of acceptable courses in general education with not less than twelve (12) semester hours in the humanities and not less than six (6) semester hours in each of the following areas: the social sciences and natural sciences.

These requirements apply to both elementary and secondary fields.

B. Professional Education in Secondary Education

Certificates are based on the completion of a minimum of eighteen (18) semester hours of professional education distributed in the following areas: social foundations of education, educational psychology and human growth and development, materials and methods of instruction and curriculum, and not less than six (6) of the eighteen (18) semester hours in actual practicum and student teaching experience under approved supervision and appropriate seminars including necessary observation, participation and conferences on teaching problems. The areas of methods and materials of instruction and curriculum, and student teaching shall relate to the subject matter specialization field or fields.

C. Elementary Education—Subject Matter Requirements

The provisional college certificate may be issued to those who have been granted a bac-

calaureate degree upon the completion of thirty-six (36) semester hours in the elementary field distributed as follows:

1. Eighteen (18) semester hours of basic professional education (same as B above).
2. A course in the teaching of reading.
3. The remainder of the thirty-six (36) semester hours selected from a minimum of four of the following areas: mathematics, arts and crafts, music, physical education, language arts, sciences, social studies, geography, mental hygiene, or a course dealing with exceptional children.
4. The prospective elementary education teacher is required to have an academic major or an area of concentration of at least 18 to 24 semester hours.

The area of concentration may be defined as follows:

- a. Study in a single subject such as history; study in a broad field such as sociology, psychology, and anthropology elected from social science; study in an inter-disciplinary

field such as courses elected from the humanities, social science, or the natural sciences.

- b. In lieu of the academic major an area of interest of 18 to 24 semester hours may be offered, contingent upon approval of the program by the Department of Public Instruction.

D. Secondary Education—Subject Matter Requirements

1. An applicant may have a "single subject" written on a certificate upon the completion of at least twenty-four (24) semester hours of approved college studies in the specialized subject field, unless otherwise specified in the certification requirements.
2. Comprehensive and general certification:
 - a. Comprehensive English — 36 semester hours.
 - b. Physics and Mathematics — 36 semester hours, with a minimum of 12 semester hours in each field.

- c. Comprehensive Social Studies with a major in Economics, History, Political Science, or Sociology — 36 semester hours.
- d. History and Government — 24 semester hours.

E. Secondary Student Teaching Program

A student concentrating in a major area of interest may, upon the direction of his adviser and approval of the Dean of the College, enroll in one of four student teaching programs.

1. Semester of Professional Training

A student desiring to receive, upon graduation, Pennsylvania state provisional college teacher certification devotes the first semester of the senior year to professional preparation. The fifteen weeks are organized as follows:

Six Weeks: Ed. 20. Social Foundations of Education.

3:7½:0. See page 72 for course description.

This course is also offered outside the semester of professional training (terminates January, 1970).

Six Weeks: Psych. 23. Educational Psychology (effective September, 1970).

3:7½:0. See page 104 for course description.

This course is also offered outside the semester of professional training.

Six Weeks: Ed. 49. Practicum and Methods.

3:7½:0. See page 74 for course description.

Some time is devoted to the presentation of data on Basic Reading instruction to fulfill certification requirements for the Commonwealth of Pennsylvania.

Nine Weeks: Ed. 40. Student Teaching.

Nine semester hours credit. (First semester)

The student enters on a full-time student teaching experience for nine consecutive weeks. He is under the direction of a trained teacher in an accredited public high school and is counseled and directed by the college supervisor of secondary education. The student teacher also is observed by his major adviser.

Prerequisites for Student Teaching: A student must have met the following requirements to be accepted for the professional semester in his senior year:

- a. Maintained satisfactory academic standing.
- b. Completed the basic courses Education 20, Psychology 23, and Education 49.
- c. Secured written approval of his major adviser and the director of student teaching.

Major Requirements and Teacher Certification: All academic major requirements for the liberal arts degree and for Pennsylvania state certification must be met either prior to the professional semester, during the semester following the professional semester, or in a prescribed summer school program approved by the major adviser.

2. Post-Graduate Student Teaching

The post-graduate student teaching program is under the direction of Lebanon Valley College or, by arrangement, may be pursued with any other accredited institution which has provision for supervising student teaching in the public schools.

Because of the necessity of meeting Pennsylvania state certification requirements of proper supervision, only a limited number of students are accepted in the in-service student teaching program. Likewise, assignments are made only to those schools within the range of the institution responsible for supervising the enrollee.

3. Graduate Internship

A student may enroll in one of many graduate internship programs after graduation from college. For further information contact the chairman of the Department of Education.

4. Summer School Student Teaching Following Graduation

A senior may, upon counsel of his adviser, enroll for a summer student teaching program after graduating from the College.

A student may teach in the Derry Township School System in Hershey or an acceptable summer student teaching program elsewhere.

THE COLLEGE HONORS PROGRAM

The college honors program exists for the following purposes: to provide an opportunity for intellectually able students to develop their abilities to the fullest extent, to recognize and encourage superior academic achievement, and to stimulate all members of the College family to greater interest and activity in the intellectual concerns of college life.

These objectives are pursued by means of a double-phased program consisting of (1) Honors Sections in a number of courses in-

cluded in the general and distribution requirements taken for the most part during the student's freshman and sophomore years, and (2) an Independent Study plan by which a student during his junior and senior years may do individual work within the department of his major concentration. An Honors student may participate in either of these phases of the program without participating in the other. An over-all grade point average of 3.00 is a requirement for the maintenance of Honors status.

Appropriate recognition is given students who successfully complete either phase or both phases of the College Honors Program.

HONORS SECTION

Honors sections are offered in the following courses: English 10a-10b, English Composition; Religion 12, Introduction to Biblical Thought; Religion 13, Introduction to the Christian Faith; English 20a-20b, Comparative Literature; History 23, Political and Social History of the United States and Pennsylvania; and Psychology 20, General Psychology. The satisfactory completion of eighteen hours of Honors work is required for official recognition of participation in this phase of the College Honors Program.

Freshmen are admitted to Honors sections on the basis of their academic standing in secondary school, performance in the College Entrance Examination Board tests, the recommendation of teachers and counselors, and personal interviews with members of the Honors Council. Students not accepted initially can be admitted to the program at the beginning of subsequent semesters as they demonstrate ability to do superior work.

The seminar and tutorial methods are used to the greatest possible extent, and sections are kept small in size.

INDEPENDENT STUDY

Independent Study is offered for credit in the student's major field in the junior and senior years. Independent Study consists of a reading and/or research program producing a thesis or an essay. The latter is done on a problem or subject of the student's own choosing under the direct supervision of a faculty adviser. Opportunity is afforded to do creative work. A maximum of nine hours credit can be earned in Independent Study.

Independent Study is offered in the following departments: Chemistry, Economics and Business Administration, Elementary Education, English, Foreign Languages, History and Political Science, Mathematics, Music, Philosophy, Physics, Psychology, Religion, and Sociology. For further details regarding requirements and procedures in Independent Study, see the appropriate paragraph under each department in the catalog section "Courses of Study."

AUXILIARY SCHOOLS

SUMMER, EVENING, EXTENSION

Summer sessions, evening classes on campus, and extension classes in the University Center at Harrisburg have enabled teachers, state employees, and others in active employment to attend college courses and secure academic degrees. By a careful selection of courses, made in consultation with the appropriate adviser, students can meet many of the requirements for a baccalaureate degree. Some courses may be taken for permanent teaching

certification; others may be taken with the aim of transferring credit to another institution. Many courses lead to professional advancement or are of direct benefit to persons in business or industry, while others assist in broadening the student's vocational, social, and cultural background.

SUMMER SCHOOL

Regularly enrolled students may, by taking summer school courses, meet the requirements for the bachelor's degree in three years.

A course in Student Teaching (Education 40) is offered in the summer session at Hershey, Pennsylvania. It is designed to meet the minimum student teaching requirements in the secondary field toward teacher certification in the Commonwealth of Pennsylvania.

CAMPUS EVENING CLASSES

Evening classes are offered on the campus, Monday through Thursday, and carry residence credit.

Separate brochures are published for the Summer School and the Evening Classes. For copies or for other information pertaining to Summer School or Evening Classes write to Director of Auxiliary Schools, Lebanon Valley College, Annville, Pennsylvania.

UNIVERSITY CENTER AT HARRISBURG

Extension classes are offered in the William Penn High School, Third and Division Streets and at the Center's Campus, 2991 North Front Street, Harrisburg, 17110, on Monday through Thursday evenings and on Saturday mornings. Lebanon Valley College's extension program in Harrisburg is carried on in conjunction with Elizabethtown College, Temple University, The Pennsylvania State University, and the University of Pennsylvania.

All students admitted and enrolled for a degree at the College are required to secure the permission of the Assistant Dean of the College prior to enrolling for any courses at the University Center at Harrisburg.

For details pertaining to the University Center at Harrisburg write or call the director at 2991 North Front Street, Harrisburg, Pennsylvania 17110, at 238-9694 or 238-9695.

JUNIOR YEAR ABROAD

A Lebanon Valley student may spend his junior year abroad in study under a program administered by an accredited American college or university, or in a program approved by Lebanon Valley College. Such a student must have maintained a B average at Lebanon Valley College, must be proficient in the language spoken in the country in which he will study, and must be a person who in the judgment of the Assistant Dean of the College and the faculty will be a worthy representative of his own country. His proposed course of study must be approved by the chairman of his department and the Assistant Dean of the College.

ACADEMIC PROCEDURES

REGISTRATION

Students are required to register for classes on official registration days of each semester and on designated pre-registration days. Information concerning the dates for official registration is listed in the College Calendar, pages 3 and 5.

LATE REGISTRATION

Students registering later than the days and hours specified will be charged a late registration fee of ten dollars. Students desiring to register later than one week after the opening of the semester will be admitted only by special permission of the Assistant Dean of the College. Students who do not pre-register during the designated time will be charged a late pre-registration fee of ten dollars.

CHANGE OF REGISTRATION

Change of registration, when necessary, must be made over the signature of the adviser. Registration for a course will not be permitted after the course has been in session for one full week. A student may withdraw from a course at any time within the first six weeks of classes in a semester without prejudice. A fee of \$2.00 is charged for every change of course made at the student's request after registration day.

ORIENTATION FOR NEW STUDENTS

A spring orientation day is held annually for incoming freshmen. At this time the activities include a general orientation to the College, diagnostic testing, counseling with academic advisers and registration for courses. Special sessions for parents are a vital part of the program.

An orientation day for transfer students is held in early summer. At that time, academic counseling and registration for courses are held.

An orientation period of several days, Freshman Week, at the beginning of the college year is provided to help new students, both freshmen and transfers, to become familiar with their academic surroundings. This time is

devoted to discussion of summer reading books, lectures, social activities, and informal meetings with members of the faculty.

During the first semester all freshmen and transfer students are required to participate in an orientation course which includes a series of lectures and discussions on campus activities and methods of study.

DISCONTINUANCE OF COURSE

The College reserves the right to withdraw or discontinue any course for which an insufficient number of students have registered.

REPETITION OF COURSES

No student shall be permitted to repeat, either for credit or for quality points, a course for which he has already received a passing grade.

CONCURRENT COURSES

A student enrolled for a degree at Lebanon Valley College may not carry courses concurrently at any other institution without the consent of his adviser and the Assistant Dean of the College. Neither may a regular student carry work concurrently in evening or extension courses without the permission of his adviser and the Assistant Dean of the College.

A student registered at Lebanon Valley College may not obtain credit for courses taken in other colleges, including the University Center at Harrisburg, during the summer unless such courses have prior approval of his adviser and the Assistant Dean of the College.

AUDITING COURSES

Full-time students are permitted to register to audit courses with the consent of the instructor and the academic adviser. The regular tuition fee is charged. Neither grade nor credit is given either at the time the course is audited or thereafter.

FACULTY ADVISERS

Each student is assigned a faculty adviser who serves in the capacity of friendly counselor.

The initial selection of a major may be indicated or recorded any time before the end of the student's sophomore year. Such a

choice of department or curriculum in which to pursue work of special concentration must be made by the time of registration for the junior year. This department or curriculum shall be known as his major. The chairman or another member of the department or the adviser of the curriculum in which the student has elected to major becomes the adviser for that student. The adviser's approval is necessary before a student may register for or withdraw from any course.

ARRANGEMENT OF SCHEDULES

Each student arranges his course of study and his class schedule in consultation with, and approval of, his faculty adviser. Students already in attendance do this during pre-registration periods. Information concerning faculty advisers is given to new students at the Spring Orientation Day.

LIMIT OF HOURS

To be classified as full-time, a student must take at least twelve semester hours of work. Sixteen semester hours of work is the maximum permitted without special permission of the Assistant Dean of the College; Physical Education carries no credit.

The privilege of carrying extra hours will be granted only for compelling reasons and only when a satisfactory grade level has been maintained for the previous semester. An additional charge will be made for all hours above sixteen.

ACADEMIC CLASSIFICATION

Students are classified academically at the beginning of each year. Membership in the sophomore, junior, or senior classes is granted to those students who have earned a minimum of 28, 56, or 84 semester hours credit respectively.

All entrance deficiencies must be removed before the academic status of sophomore is granted.

COUNSELING AND PLACEMENT

Lebanon Valley College recognizes as part of its responsibility to its students the need for providing sound educational, vocational, and personal counseling. Measures of inter-

est, ability, aptitude, and personality, in addition to other counseling techniques, are utilized in an effort to help each student come to a fuller realization of his capabilities and personality. An important part of the counseling program consists of a series of lectures and discussions conducted as a non-credit orientation course for new students.

Placement services are provided by the College for aiding students in procuring part-time employment while in college and in obtaining positions upon graduation. A current file is maintained which contains information about positions in various companies and institutions, Civil Service opportunities and examinations, entrance to professional schools, assistantships, and fellowships. Representatives of business, industry, and educational institutions visit the campus annually to interview seniors for prospective employment. A file of credentials and activities of those students availing themselves of the services is available to prospective employers. Graduates may keep their individual files active by reporting additional information to the Director of Industrial Placement.

A Teacher Placement Bureau which assists students in finding positions is maintained.

Records of student credentials in all areas of the students' activities are on file.

ADMINISTRATIVE REGULATIONS

The rules of the College are designed to provide for proper regulation of the academic community. The rules and regulations as stated in this bulletin are announcements and in no way serve as a contract between the student and the College. Attendance at the College is a privilege and not a right. The student by his act of registration concedes to the College the right to require his withdrawal any time deemed necessary to safeguard the ideals of scholarship and character, and to secure compliance with regulations. It is expected that the conduct of all campus citizens will conform to accepted standards. All students are required to respond to communications sent by any duly constituted authority of the College.

CLASS ATTENDANCE

Each student is held responsible for knowing and meeting all requirements for each course, including regular class attendance. Because of differences in various disciplines, specific regulations governing class attendance are set by each department, approved by the Dean of the College, and administered by the instructor. At the opening of each course the instructor will clearly inform the students of the regulations on class attendance. Violations of class attendance regulations will make the student liable to being dropped from the course with a failing grade, upon the recommendation of the instructor and with the approval of the Dean of the College.

Excused absences are granted by the Registrar's office only for bona fide medical and compelling personal reasons, or for participation in official functions of the College. Students on academic probation are permitted only excused absences.

Excused absences do not absolve the student from the necessity of fulfilling all course requirements.

CHAPEL ATTENDANCE

Chapel service is conducted once a week. Attendance is required of all full-time stu-

dents. Five absences are allowed during a semester. For each additional unexcused absence one hour will be added to the required hours for graduation.

HAZING

Hazing is strictly prohibited. Any infringement by members of other classes upon the personal rights of freshmen as individuals is interpreted as hazing.

CARS AND STUDENT PARKING

Resident students of the three upper classes may have cars on campus. Resident freshmen students are not permitted to have cars.

All cars owned or operated by Lebanon Valley College students must be registered with the student Men's Senate Parking Committee. Violations of parking regulations established by the Senate Parking Committee may result in fines.

TRANSCRIPTS

Each student, former student, or graduate is entitled to one transcript of his college record without charge. For each copy after the first, a fee of one dollar is charged.

REGULATIONS REGARDING ACADEMIC PROBATION, SUSPENSION, DISMISSAL, WITHDRAWAL

A. PROBATION

A student can be placed on academic probation by the Dean of the College or suspended or dismissed if his academic standing fails to come up to the grade-point average shown in the following table:

| | Suspension or Probation | dismissal |
|-------------------------|----------------------------|-----------------|
| 1st semester..... | 1.25 | |
| 2nd semester..... | 1.50 | 1.25 cumulative |
| 3rd semester..... | 1.50 | |
| 4th semester..... | 1.70 | 1.50 cumulative |
| 5th semester..... | 1.75 | |
| 6th semester..... | 1.75 | 1.65 cumulative |
| 7th & 8th semesters.... | 1.75 | in all courses |

A student placed on academic probation is notified of such status by the Dean of the College and informed of the College regulations governing probationers. Students on probation are required to regulate their work and their times so as to make a most determined effort to bring their work up to the required standard.

When a student is placed on academic probation, faculty and parents are notified by the Dean of the College. The Dean of the College may terminate the period of probation of any student. Usually this occurs at the end of a final marking period.

Infraction of the following regulations governing probationers render a student liable to dismissal:

1. No unexcused class absences will be permitted.
2. Any office or activity in any College organization that involves such expenditure of time as to jeopardize the successful pursuit of academic work must be relinquished.

B. SUSPENSION

1. A student who obviously fails to achieve at a level commensurate with his measured ability may be suspended for at least one semester.

2. A student suspended for academic reasons is not eligible for reinstatement for at least one semester, preferably two.

3. A student seeking reinstatement to Lebanon Valley College must apply in writing to the Dean of the College.

4. Students suspended for academic reasons are not permitted to register for work in the Auxiliary Schools except for the most compelling reasons and then only with the approval of the Assistant Dean of the College.

5. A student may be suspended without a prior period on probation.

C. DISMISSAL

A student dismissed for academic reasons is not eligible for readmission.

D. WITHDRAWAL FROM COLLEGE AND READMISSION

Official withdrawal from College is accomplished only by the completion of the withdrawal form obtained in the Registrar's Office. This is the sole responsibility of the student.

Application for readmission will be considered only if the formal withdrawal procedure has been followed at the time of withdrawal.

Student Activities

THE RELIGIOUS LIFE

Lebanon Valley College was founded as a Christian College and continues to be dedicated to this objective. All students are invited and urged to participate in some phase of religious activity.

CHAPEL

A college chapel service is held weekly in the Chapel. Students are required to attend under modified attendance arrangements. Faculty, students, regional clergymen from the various denominations, and nationally and internationally known speakers participate in these services, which constitute an integral part of liberal education for every college student. The Chapel Choir shares in most of the services.

SUNDAY SERVICES

The United Methodist Church and the other churches of the community extend a warm welcome to all college students who wish to attend Sunday worship.

There are seven churches of different denominations in Annville itself. Other parishes of major religious groups not found in Annville are located within a five-mile radius of the College.

THE STUDENT CHRISTIAN ASSOCIATION

The Student Christian Association begins the year with a Big Sister-Little Sister, Big Brother-Little Brother program, and initiates a week of activities to welcome the incoming freshmen. Throughout the year the organization sponsors faculty firesides where students spend an evening at home with the professors, and all-campus retreats for fun, fellowship and relaxation. Student Christian Association provides special seasonal services, opportunities for

weekend work camps, and presentations by guest speakers for intellectual and spiritual stimulation. All students are welcome to assist in the planning of and to participate in these activities.

RELIGIOUS EMPHASIS WEEK

This is one of the outstanding religious events of the school year. Notable speakers are invited to share their experiences with the student body through classroom lectures, seminars, convocations, and personal interviews.

THE BALMER SHOWERS LECTURE

This annual lectureship was established and endowed by the late Bishop Emeritus J. Balmer Showers, '07, of the Evangelical United Brethren Church. Under the stipulations of the endowment, the lectures are delivered by distinguished scholars of recognized leadership in the areas of Christian faith and theology, biblical archaeology and interpretation, Christian ethics of the Christian ministry.

RELIGION AND LIFE LECTURESHIPS

The purpose of the Religion and Life Lectureships is to deepen the student's understanding of some of the problems of life and the religious resources that are available to meet such problems. Each semester a Christian leader of national or international reputation is invited to spend a day on campus in order to confer with students and faculty, to conduct seminars, and to address the entire college community.

CHRISTIAN VOCATION WEEK

During this period special emphasis is given to the Christian way of life as the basis for all occupations and professions. Opportunity is provided for students interested in full-time church vocations to confer with visiting teams of advisers and counselors.

DELTA TAU CHI

Delta Tau Chi is an organization composed primarily of students who have decided to devote full-time service to church vocations. Membership is open, however, to all students who wish to participate in the activities of the organization. The group holds regularly scheduled meetings, daily morning prayers, sends deputations to churches, conducts programs at various hospitals and homes, and enters into other community projects.

Symphonic Band

All-Girl Band

College Chorus

Concert Choir

Chapel Choir

Symphony Orchestra

Wig and Buckle Club

Guild Student Group (American Guild of Organists)

CULTURAL OPPORTUNITIES

Lebanon Valley College offers cultural programs in the form of concerts by students, faculty members, and musical organizations in the Department of Music, and lectures sponsored by the various departments of the College. In addition, the neighboring communities of Harrisburg, Hershey, and Lebanon offer concerts, lectures, and other cultural activities throughout the year.

FACULTY-STUDENT GOVERNMENT

Ultimate responsibility for activities on the college campus rests with the faculty and the administration. However, the faculty and the administration have delegated powers and responsibilities to the student governing bodies so that, to a large extent, students govern themselves. The College encourages initiative and self-government as a part of the democratic training offered.

FACULTY-STUDENT COUNCIL

The coordination of student affairs is the responsibility of the Faculty-Student Council. The Council is composed of three faculty members and a representative from each of the organizations on the campus. The purpose of this organization, in addition to coordinating student activities, is to consider matters pertaining to student welfare, to seek improvement of the social life of the campus, to serve as liaison between students and faculty, and to suggest and initiate programs for the over-all improvement of the College.

GOVERNING BODIES

Four student governing bodies function on the campus. The Senate is the governing body for students living in the men's residence halls and for men students residing in the community with other than their immediate families; the Men's Day Student Congress is the governing body for commuting men students; the Resident Women's Student Government Association is the governing body for women living in the residence halls; and the Women's Commuter Council is the governing body for commuting women students. These four organizations, with the approval of the faculty, make and administer the rules which govern certain aspects of student life.

ATHLETICS AND RECREATION

Lebanon Valley College maintains a full program of intramural and intercollegiate athletic activities. Intramural leagues and tournaments are conducted in the various sports for men, while the women acquire points toward individual awards by participation in the women's intramural program.

The college participates in seven intercollegiate sports for men (basketball, cross-country, football, golf, lacrosse, track, wrestling) and two for women (basketball and hockey). There are two athletic organizations on the campus, the LV Varsity Club for men and the Women's Athletic Association.

Lebanon Valley College is a member of the following national and regional athletic associations: National Collegiate Athletic Association, Middle Atlantic States Collegiate Athletic Conference, Eastern College Athletic Conference, and Central Pennsylvania Field Hockey Association.

AIMS AND OBJECTIVES OF INTERCOLLEGIATE ATHLETICS

Lebanon Valley College endeavors to maintain inter-collegiate athletic programs for the students rather than for spectators. The overall programs are not regarded as money-making ventures. On the contrary, intercollegiate athletics has consistently been a financial burden. However, the College continues to support and encourage intercollegiate athletics because we are convinced that it is an important factor in the intangible known as "morale." Intercollegiate athletics is an integral part of the educational pattern of our young people—no more and no less.

Courses of Study

INDEPENDENT STUDY

Independent Study in elementary education permits the capable student to increase the depth of his understanding in an area of special interest and the general scope of his knowledge of elementary education. It is planned as an integral part of the student's major program rather than work superimposed upon it.

A student majoring in elementary education may participate in the Independent Study Program when he completes the freshman-sophomore College Honors Program or when he demonstrates in his academic work the caliber of scholarship required to undertake an extensive research project; achieves a 3.3 grade-point average in departmental courses and a 3.0 grade-point average in all college courses; applies in writing to the chairman of the department not later than the end of the first semester of his junior year. Approval of the application must be given by the Dean of the College upon recommendation by the department staff.

A maximum of nine credit hours may be earned in this program. These hours will be distributed over the junior and senior years with a minimum of one and a maximum of three hours to be taken in one semester. This must include participation in the Senior Seminar, Elementary Education 44, required of all students majoring in elementary education. The student will investigate an area of special interest beginning with the study of the literature and culminating in the design and execution of

an approved experimental or theoretical research project; submit to the departmental chairman periodic progress reports and any other indication of performance that may be required by the department; complete the project by April of the senior year; report and defend the findings of the project in a manner to be determined by the departmental staff.

Graduation with Honors in Elementary Education will depend on the quality of performance in the research project, the maintenance of the grade point averages required for admission to the program, the results of the Graduate Record Examination, success in the comprehensive student-teaching program, and the final approval of the departmental staff and the Dean of the College.

PHYSICS

Professors Rhodes and Grimm; Assistant Professor O'Donnell; Instructor McCrory

The Department of Physics attempts to develop in the student an increased understanding of the basic laws of nature as they relate to our physical environment, and to indicate the possible extent, as well as the limitations, of our knowledge of the physical world.

The introductory course, Physics 10, is intended for students who wish to take only one course in Physics. The sequence of courses beginning with Physics 17 provides suitable training for students who anticipate additional work in the physical sciences and who are preparing for graduate school, for secondary school teaching, and for research and development work in governmental and industrial laboratories. Laboratory work is designed to acquaint the student with the experimental techniques and the measuring instruments appropriate to the various areas of investigation, and to give experience in the interpretation and communication of the experimental results.

Mathematics is an essential tool in the study of Physics. The introductory course, Physics 10, requires a knowledge of high school algebra and trigonometry, but students who plan to take other courses in Physics should take the appropriate prerequisite mathematics courses as soon as possible.

COOPERATING TRAINING TEACHERS:

The student teaching program is organized to give the beginning teacher as wide and varied experiences as possible.

Extreme care is used in the assignment of the cooperating teacher with the student teacher. The selection is made in a cooperative manner between the administration of the local school and the supervisor of practice teaching at the College.

Student teaching in Music Education is done in the Derry Township Public Schools, the Annville-Cleona Schools and the Milton Hershey School. Student teaching in other areas of Elementary and Secondary Education is done in schools within reasonable traveling distance of the College.

Names of cooperating teachers and subjects taught are available in the offices of the departments of Education and Music.
